National Health Ethics (NHE) Week is a time to raise awareness and promote dialogue regarding ethics issues facing our community. Ethical issues are part of life in healthcare. Everyone—patients, families, staff, physicians, leaders, learners and volunteers—make ethical decisions on a daily basis and may experience ethical issues or dilemmas. During this special presentation celebrating NHE week, we will explore:

1. The role of ethics in healthcare services across our region
2. Local ethics resources
3. Demonstration of ethical case analysis using the IDEA Framework
